

MUZER

Why have you decided for Worms?

I played the original around a friend's house and got hooked. When that friend moved away, I instantly went out and bought Worms: United. I've bought nearly every game since!

When did you start playing Worms?

Probably around 2000/2001, I can't remember exactly.

How much time do you spend playing Worms?

Not much at the moment, since I'm coding a lot of the time. However, between projects, I play around 2-3 hours per day.

How long does it take you to code, make website etc.?

It depends on the project. My current project, Miight (my Wii Linux distro), I've been working on for around 4 months and am still going, other projects last around a month or two before I get bored and move on. I'll probably go back to some of them at some point as they have a lot of potential that I have not fulfilled.

Your beloved weapon?

I like the ninja rope because of its versatility, but I also like all of the weapons from the original. I'm not sure what my favourite one would be.

Favourite scheme?

Probably Hysteria, I love the panic feeling you get when playing it.

Favourite speech?

Team17 Test.

Do you or do you not use WormKit? Why?

I don't use WormKit, for the simple reason that it does not work with Linux in Wine. If someone were to get it working, I would gladly use it.

Your vision of WA in 5 years?

I don't really know for sure. I just hope the community is still around and active, and updates are still being released for it.

AFK hobbies?

I like reading, and watching TV whenever I find the time.

Favourite book?

Probably Douglas Adams' HHGTTG trilogy of 5.

Favourite movie?

That's a tricky one as it keeps changing. I like Hot Fuzz, but I've watched it so much it's become boring now, so I'm not really sure.

Favourite food?

Spaghetti Bolognese (if you mean meal, if just food in general, something with chocolate in it)

Favourite drink?

Coca Cola

Your annoying habits?

I chew things (including my nails and my shirt)

Your idol?

Linus Torvalds

Life motto?

I haven't really got round to making one, but just quickly thinking about it, it would probably be RTFM.

Place you'd like to visit?

Japan (again).

What makes you laugh?

Userfriendly.org

The most stupid question you've ever been asked:

Ooh, that's a tough one; there are hundreds of stupid questions per day in #wiihelp on EFNet and #help on WormNet, and I forget most of them. Probably idiots asking for voice in #wiihelp... twice (there's a script to automatically kick people asking for voice, so if you do it twice, that's just pure stupidity).
